- It helps schools assess their healthiness and identify areas for improvement.
- It provides schools with a roadmap for creating a healthier environment for students.
- It can help schools track their progress over time.

- It can help schools communicate their health and wellness efforts to stakeholders.
- It can help schools qualify for grants and other funding opportunities.

How to Use the Healthy School Report Card

The Healthy School Report Card is a tool that can be used by schools of all sizes and types. It is a self-assessment tool, which means that schools can complete it on their own. The report card is divided into six sections:

1. **Health Education**
2. **Physical Activity**
3. **Nutrition Services**
4. **School Health Services**
5. **Mental Health and School Climate**
6. **Health and Safety Policies and Procedures**

Each section of the report card contains a series of questions that schools can use to assess their healthiness. Schools can score themselves on a scale of 1 to 5, with 5 being the highest score.

Once schools have completed the report card, they can use the results to identify areas for improvement. The report card also provides schools with a roadmap for creating a healthier environment for students.

Tracking Progress

It is important for schools to track their progress over time. This will help them to see how their efforts are making a difference. Schools can track their progress by completing the Healthy School Report Card on a regular basis.

The Healthy School Report Card is a valuable tool that can help schools create a healthier environment for students. By using the report card, schools can assess their healthiness, identify areas for improvement, and track their progress over time.
