When a civil war erupts in the African nation of Sangala, McGill finds himself thrust into the chaos. Hired by a desperate aid organization, he must race against time to evacuate civilians before the rebels take over the capital city.

But as McGill and his team make their way through the war-torn country, they quickly realize that the mission is more dangerous than they ever imagined. The rebels are ruthless and determined, and they will stop at nothing to prevent the civilians from escaping.

As the clock ticks down, McGill and his team must fight their way through a gauntlet of gunfire, explosions, and deadly traps. But even if they can make it to the evacuation point, there is no guarantee that they will be able to get out alive.
