## What is Knooking?

Knooking is an innovative technique that utilizes a unique hook, called a knook, which combines the functionality of both knitting needles and crochet hooks. This allows you to create fabrics with a unique texture and versatility that can mimic the look of both knitted and crocheted items.

The knook has a pointed tip like a crochet hook, but with a hook at the other end, similar to knitting needles. This unique design enables you to both knit and crochet, creating a rich tapestry of stitches and patterns.
